## EXPERIENCE

### KITCHENSURFING

Software Engineer | New York City

September 2015 -  
May 2016

- Worked in a full-stack capacity on a ten person continuous-deployment product team to help relaunch and rebrand Kitchensurfing as a weekly subscription dinner service.
- Built customer-facing features, internal tools, and API endpoints for our iOS client in a Ruby on Rails web application with 97.63% test coverage.
- Coordinated and executed the migration of user data from our legacy Mongo database to our current PostgreSQL database with only eight minutes of controlled downtime to significantly reduce technical debt.
- Pair programmed on a starter-pack dinner bundle feature that increased customer retention by 30% over a six week period.

### GENERAL ASSEMBLY (GA)

Software Engineer | New York City

February 2013 -  
August 2015

- Led full-stack development for over a year on GA Profiles ([ga.co/profiles](http://ga.co/profiles)), a Rails and React web platform for GA alumni and employers.
- Iterated on GA Profiles in a four person agile team to grow it's user base to 1800+ student and 1500+ employer profiles.
- Before GA Profiles, worked in a conversion focused development team, pair programmed on an internal authentication Rails service, and maintained GA's SASS styles on its Wordpress blog using Compass.
- Also taught intro to programming workshops after work hours.

### BERKLEY CENTER FOR RELIGION, PEACE, & WORLD AFFAIRS

Communication and Design Assistant | Washington, D.C.

February 2010 -  
May 2012

- Designed web assets, brand assets, and academic reports using Adobe InDesign, Photoshop, and Illustrator

---

## EDUCATION

### GEORGETOWN UNIVERSITY

B.A. Economics, Minor in Film & Media Studies | Washington, D.C.

August 2010  
- May 2012

- GPA 3.87 / 4.00, graduated magna cum laude
- Made a senior film documentary thesis titled *So Where's Home*

---

## SKILLS

#### Languages

Ruby, JavaScript, HTML, CSS, SQL, HAML, SASS, ES6, Python

#### Frameworks + Libraries

Rails, Sinatra, jQuery, React, Webpack, Grunt, Pandas, Scikit-Learn

#### Testing

RSpec, Capybara, Jasmine, Cucumber

#### Other Tools

Git, Vim, Tmux, Sketch, InDesign, Photoshop

---

## INTERESTS

- Web Development
- Product Development
- Filmmaking
- Data Science
- Graphic Design
- Emerging Markets
- Southeast Asia
- Food Photography
- English Football

---

## FUN FACTS

- Three classmates and I won OpenShift's sponsor prize at the 2013 Fintech Hackathon NYC for our Rails app, [Social Fund](#)
- I was born in Florida, raised by Filipino parents, and lived in Singapore for 16 years making me a third culture kid (TCK).
- I cycled with my brother and three others from Kunming, China to Hanoi, Vietnam to raise money for rural schools in China and Sierra Leone
- I ate a yak burger in Lhasa, Tibet
